**Exam :** HP2-Z23

**Title :** Selling HP Enterprise Networking Solutions

**Vendors :** HP

**Version :** DEMO

NO.1 How many users comprise a large enterprise network.?

- A. 500 or more
- B. 1,000 or more
- C. 5,000 or more
- D. 10,000 or more

Answer: B

NO.2 In 2011, nearly \$9 billion in Cisco networking equipment was approaching end of life or service. Which

statement is true of customers with this aging Cisco hardware in their infrastructure?

A. In this economy, very few customers are looking to upgrade their networks despite the fact that their

aging Cisco infrastructure lacks both agility and scalability.

B. The majority of these Cisco customers have already purchased new Cisco products or products from

competing vendors. There is still an opportunity here to sell these customers on HP FlexNetwork

solutions, but the timing is not ideal.

C. These Cisco customers know that upgrading to new Cisco equipment from legacy Cisco equipment is

always going to be easier than switching to a new vendor for network infrastructure services.

You will

need to give them very good reasons to introduce HP into their infrastructure.

D. Now is a great time to introduce these Cisco customers to HP FlexNetwork solutions.

Because they will

need to upgrade soon, they may already be considering introducing a replacement or secondary

networking vendor into their infrastructure.

Answer: D

NO.3 Which HP technology enables enterprises to securely connect thousands of branch offices, campuses,

and data centers with standards-based IPsec encryption while significantly reducing manual configuration

of IPsec tunnels?

- A. HP Intelligent Management Center (IMC)
- B. HP Dynamic Virtual Private Network (DVPN)
- C. HP Advanced Services zl Module with VMware vSphere

D. HP Intelligent Resilient Framework (IRF)

Answer: B
